Holland Park State High School: The Home of Triple E

✓ Excellence

✓ Enrichment

✓ Extension
Excellence, Enrichment and Extension, an ethos which recognises that each person is special and that everyone is good at something.

Excellence – Never settle for less than your best efforts. All students are encouraged to engage in goal setting, risk taking and learning from mistakes. These skills are emphasised as the building blocks for excellence in all personal and academic endeavours.

Excellence is recognised in every sphere of school life including individual, group, school and community activities.

Enrichment – Our school strives to enrich the lives of our students through the development of a comprehensive curriculum with a breadth and depth of learning and life experiences.

Extension – Life long learning is about taking risks and building upon existing knowledge and skills. Our students are encouraged and supported as they extend themselves and venture into new territories.
**Triple E in operation.**

Does your child like to learn? Is he or she excited and interested in learning?

At Holland Park High we have established **Triple E classes** to cater for our **gifted and talented students**. Triple E classes in Years 8, 9 and 10 provide both extension and enrichment in English, Maths and Science. Unlike some other excellence programs Holland Park High’s E classes are open to **all students**.

Each semester student results are analysed to ascertain who is eligible for Triple E classes in English, Maths or Science. Students based on their results can be eligible for only one or all three **excellence classes**. This flexibility is a significant feature of our ability to cater for the needs and talents of all. The E classes have created a climate that is supportive of ‘it’s cool to do well in school’. E classes capitalise upon students’ love of learning and this facilitates the provision of more challenging educational experiences.

Triple E isn’t just about academic students. Our Volleyball Development Program teaches all students “our” sport and then follows up with specialised coaching and skills development for students selected in the development squad. Our support program for elite gymnasts and other athletes enables students to focus on core curriculum in a flexible mode while pursuing their intensive Training schedules.

At Holland Park High we aim to provide all students with an **opportunity to shine** in some aspect of the school’s academic, sporting, cultural and community life.

For more information regarding the range of **Excellence, Enrichment and Extension** opportunities created in our school, please contact us on 3347 0111.
